AECR C9 / AECR C5

A new generation of Android cash register combining payment

- Two touchscreens. Double engagement
- Access to a world of Android business apps
- Fast & easy integration with Ingenico Global APIs
- Peace of mind with estate management & customer care services

ingenico
a Worldline brand

The AECR C9/C5 is a modular cash register solution, enabling services deployment at counter facilitated by Android environment.

A large ecosystem of business apps
The AECR C9 or C5 take advantage of Android environment to enrich services at checkout thanks to the most open set of business applications on the market.

Global APIs
A single REST API across all Ingenico terminals to easily integrate payment and other services to the business app.

Business-centric user interface
Large 15.6'' touchscreen display and powerful processing capabilities, the AECR C9 or C5 enhance customer interaction and accelerate the checkout.

Merge ECR & payment
No pain, big game: AECR C9 or C5 can be bundled with any Telium TETRA or Android payment terminal allowing fast payment transaction capabilities.

Maximized countertop integration
Providing full-spectrum connectivity (Ethernet, USB Host and devices, Serial and cash drawer) as well as wireless 2.4GHz / 5GHz WiFi and Bluetooth, the AECR C9 or C5 offer the most flexible integration capability.

Compatible with Ingenico's suite of services
AECR C9/C5 is supported by Ingenico's Cloud services, from fleet management to merchant services such as business analytics and e-receipt management. In addition, Ingenico Customer Care Program insures payment availability, reliability and security on AECR C9/C5 during their entire life cycle.

Two form factors addressing all use cases

The AECR C9 & AECR C5 are supported by our Cloud Services
