

APOS A8

Facilitate commerce for merchants
in store and outdoor

- ▶ Transform the customer experience with a new leading-edge solution
- ▶ Take advantage of an Android community business application
- ▶ Speed up the checkout process, accepting all payment methods including alternative ones
- ▶ Support daily business through cloud services capabilities

The APOS A8 is the most integrated point-of-sale solution, providing an entire merchant checkout in the palm of your hand.

Rich business applications ecosystem

The APOS A8 integrates, in a handheld terminal, an entire point of sale to support merchant business. Taking advantage of Android environment, APOS A8 can enrich checkout services thanks to the most open set of business applications on the market.

Business-centric user interface

Equipped with a clear contactless zone, a large 5.5-inch touchscreen and powerful processing capabilities, the APOS A8 enhances usability and accelerates the checkout.

Safe and secure payment

Relying on international payment security certifications such as PCI-PTS 5.x, the APOS A8 delivers a secure payment acceptance service.

All payment options

The APOS A8 supports all traditional payment options, as well as alternative payment methods such as QR code thanks to camera.

Maximized network availability

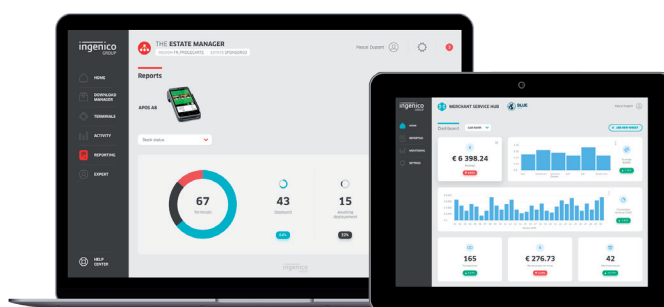

Providing full-spectrum wireless connectivity (4G, 3G, GPRS and WiFi), the APOS A8 offers the widest touch point flexibility while optimizing communication costs.

Cloud Services capabilities

The APOS A8 is compatible with Ingenico's suite of services, covering fleet management to payment application updates and merchant business services such as business and analytics services.
