

Link/2500integration

Clever payment companion
designed with integration in mind

- Specifically engineered for flexibility to accept all payment methods including NFC/Contactless, Apple Pay and Samsung Pay
- Shorten time to market by leveraging TELIUM applications into a smart companion
- Designed to facilitate the integration with a third party device

When paired with an iOS/Windows tablet or a smartphone, Link/2500 Integration brings payment acceptance to any mobile point of sales.

Highest security

The Link/2500 Integration is PCI-PTS 5.x certified. Its Telium TETRA OS uses the latest cryptographic schemes with future-proof key length.

All payment options

In addition to EMV Chip & PIN and swipe, Link/2500 Integration supports the broadest range of contactless standards allowing NFC couponing and wallet use cases.

Designed for integration

The Link/2500 Integration is the ideal product to integrate payment into a third party device. It is lightweight, features a slim design, as well as mechanical and electronic integration to charge and communicate with a third party device.

Seamless integration

Link/2500 Integration facilitates the in-store integration due to its agnosticity. Link/2500 can be pair with any iOS, Android or Windows-based tablet or smartphone to convert it into a point of sale.

User-friendly and intuitive interface

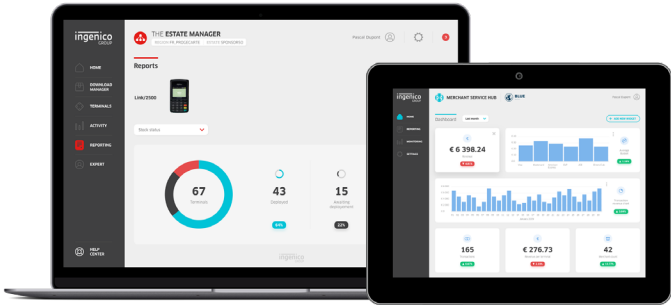

Featuring a cutting edge design, the Link/2500 Integration is user oriented with its bright 2.4" colour display and a mechanical keypad.

Compatible with Ingenico's suite of services

Keeping the solutions connected, the Link/2500 Integration works in unison with Ingenico's supporting service platforms, meaning merchants will have access to business services such as back office reporting and e-receipt management. Software updates and day-to-day support deliver a hassle-free experience.

The Link/2500 Integration is supported by our Cloud Services
