## Dual/2500

# The all-in-one mobile solution to easily & safely boost merchant services

The DUAL/2500 is a two-sided mobile point-of-sale. It's combining a payment terminal that easily and safely merges the Ingenico portfolio of payment applications with an Android-based tablet. Managed over-the-air by a single platform that monitors payment services, security tools and business services, the Dual/2500 is an ideal solution for highly mobile industries, such as transport, hospitality and in-store mobility.

# A two-sided secure point-of-sale boosting in-store & outdoor commerce

- **Optimize TCO with a unique tool to manage Android & payment side on your fleet**
- **Leverage Android, the world's leading platform**
