

ONE DAY...

I'll say this
is where
it all **started**

If you are looking to open your business to new customers in-store and online, Ingenico One can help make “One day..”, today.

As you expand, different customer journeys and additional payment methods add complexity in reconciling multiple channels and reporting streams.

With Ingenico One, you can:

Reduce complexity

Our consolidated reports organize and present your business data more efficiently than individual reports from many different sources.

Increase insight

Daily financial and transactional reports provide a constant overview of your performance, including total collections, costs and remittances.

Save time and effort

Reports are available in multiple file formats for fast and easy integration into your systems.

One consolidated payment solution

Ingenico One combines the best of in-store and online worlds into a single, simple payment solution.

One company
collects the funds
for both channels

One company
transfers funds to
your account

One
consolidated
report

One point
of contact

One
contract

The Ingenico advantage

- ✓ Transparent cost structure detailed in one contract
- ✓ No need to create local legal entities and/or bank accounts for bank transfers
- ✓ Detailed advice on payment methods included
- ✓ Best payment mix for any merchant
- ✓ The ability to refund items directly from the terminal or the back office
- ✓ Works with best-in-class Ingenico terminals (EMV, NFC and Touchscreen)

How does Ingenico One work?

Make your ONE DAY, today
