What is AXIUM for acquirers?
More differentiation, more revenues with service-driven solutions for your merchants, easily & efficiently

MORE REVENUES

## Your benefits:

> Capture new revenue streams thanks to the acceptance of new payment methods (QR Code, BLE, Bio…)

> Reduce merchant churn by proposing new services (ECR, loyalty, store management…) and capture more value

> Differentiate with a secure payment platform while fully open to the web & providing a smartphone-like experience

> Benefit from the best return on investments, optimizing field operations and total cost of ownership

What can AXIUM offer your merchants?
More services, through a web-connected point-of-sale to run & grow their business

Payment type

CB | Cash | Loyalty | APM

Benefits for your merchants:

> Access to the next-generation commerce platform converging all their needs to operate business

> Jump into store digitalization with an all-in-one commerce tool, fully open to the web

> Focus on simplicity & business efficiency with one single point of contact

> Guarantee business continuity and no compromise on security

> Benefit from an engaging business tool providing multiple services:
  - Multi-payment method acceptance (e-wallet…)
  - Business services (analytics, alerts, loyalty, promo…)
  - Store management (ECR, stock and staff management…)
  - Cloud & e-share services (e-receipt management…)
