

Link/2500 Series

Flawless design for a clever payment companion

- Specifically engineered for flexibility, accept all payment methods including NFC/Contactless, Apple Pay and Google Pay
- Shorten time to market by leveraging Telium applications into a smart companion
- Slim and robust, definitively dedicated to mobility

With the Link/2500, Ingenico brings payment acceptance to any mobile solution.

Highest security

The Link/2500 is PCI-PTS 5.x certified. Its Telium TETRA OS uses the latest cryptographic schemes with future-proof key length.

All payment options

In addition to EMV Chip & PIN and swipe, Link/2500 supports the broadest range of contactless standards allowing NFC couponing and wallet use cases.

Seamless integration

Link/2500 facilitates the in-store integration due to its agnostic nature. Thanks to WiFi and Bluetooth capability, connect any iOS, Android or Windows-based tablet or smartphone. Link/2500 can be directly connected to the back office for transactions routing.

Best fit to any use case

Due to its wide options panel and its three form factors, Link/2500 suits to any need, and specifically in terms of compactness, autonomy and physical integration.

Designed for mobility

Featuring a pocket-sized, light weight and slim design the Link/2500 is built for the most demanding use, wherever you go.

User-friendly and intuitive interface

Featuring an edge design, Link/2500 is user oriented through a bright 2.4" color display, a real mechanical keypad and a USB-C connector which can be plugged upside down. Link/2500i model also provides external electrical USB connectivity pads and mounting rails for physical integration.

End-to-end mobile point of sale solution

Integrated with Ingenico mobile commerce platform, the Link/2500 provides the mobile card acceptance piece of an end-to-end mobile point of sale solution that includes a mobile POS application, an integrated suite of mCommerce management tools and payment processing - all of which can be fully branded and localized to meet the needs of any merchant worldwide.

Secure in payment Telium TETRA OS

Backed by over 30 years of experience and with its user-friendly interface, the Telium TETRA Operating System embeds the best security mechanisms to protect transaction privacy and leverage Ingenico's unique portfolio of payment applications.
